FORCE PREACHERS INTO THE SERVICE

Missionary Work Hard Hit By War.

GERMAN METHODIST SCHOOL

Is Now Closed, Students Having Been Drafted Into the Army.

MISSIONARIES SEE TROUBLE

New York, Sept. 7.—More than 250 Protestant clergymen are bearing arms in the French army, according to a statement issued today by S. Earl Taylor, Secretary of the Board of Foreign Missions of the Methodist Episcopal Church, while nearly all of the German Methodist ministers engaged in missionary and religious work in South Germany have been called to the colors.

The Methodist Theological School at Frankfurt, Germany, has been closed, most of the students having been drafted into the army, Taylor said.

"Bishop Nuelson, in charge of the work of the board's affairs in Europe, reports to the home office that churches are disturbed and families and congregations broken up," the statement continues. "Rev. Ernest W. Hywasm, Superintendent of the church in France, suffered from New York to-day on the Manchana in the hope of being able to reach parishes in Southern France, which are said to be in great distress."

Fears were expressed by officials of the board here that if Turkey goes to war, missionary workers in Tunis and Algeria will be in great peril.

From missionaries in the Belgian Congo word was received of a threatened attack from the neighboring German colonies. Letters from Liberia tell of distress or anxiety for the missionaries there due to the possibility of an uprising among the natives, who, Mr. Taylor said, had become imbued with the war spirit as the news of the European war had spread among them.

Missionaries in India and Eastern Asia, it is said, are facing serious problems growing out of financial and trade disorders.

When orders for the mobilization of Turkish troops were posted at Beirut the inhabitants of that city fled to the mountains by thousands, according to a letter received today at the offices of the Presbyterian Board of Foreign Missions from Dr. F. E. Hopkins, a missionary worker. The exodus, Dr. Hopkins wrote, was due to the desire of the natives to escape military service. Every bank in the city, he stated, was closed and business was demoralized.

The State Treasury.

The first report of the condition of the State Treasury under the new accounting system which is being tried out, was made Wednesday, showing \$858,380.60 balance in the State Treasury at the close of business August 31, as follows:

School fund	\$ 828,529.55
General expenditure fund	24,523.33
State University (15-cent tax)	5,327.72
Deficit in sinking fund	8,388.05
Current warrants	347,483.25
Outstanding warrants	
June 30	2,364,852.98

Methodists to Meet.

The annual Louisville Conference of the Southern Methodist church will convene in Louisville Wednesday, September 23, and will be in session until the following Monday. It is said that on account of the four-year limit there will be more changes in pastors than at any time in years.

THIRTY-ONE INDICTMENTS FOR FIXING FOOD PRICES

Washington, Sept. 5.—Thirty-one indictments were returned here by a Federal grand jury after an investigation to determine whether food prices had been artificially increased here on pretext of having been caused by the European war.

Warrants were issued for all the indicted men who are local commission merchants or produce dealers, and bail was arranged for

their appearance in court. "No nationally known concerns were indicted. The indictments charge that they have been fixing prices every day on foodstuffs by 'bailouts' or 'suggestions' or verbal agreements, and that the fixed prices have been circulated by printed circulars. The indictments are under the Sherman law and conviction carries a fine of \$5,000 or one year's imprisonment, or both.

The grand jury investigation which was under the direction of former Attorney General McInerney was one of the many begun by the Department of Justice directing a country-wide inquiry into whether certain dealers were not making the European war a pretext for raising prices.

Dogs Aid Wounded.

Paris, Sept. 7.—Police dogs, being used in this war in Red Cross work for the first time, are reported to be giving excellent results. They have been trained to discover the wounded and to bring his cap or another piece of his wearing apparel back to the headquarters of the Red Cross, and then to lead a nurse to the wounded man.

AUSPICIOUS OPENING OF HARTFORD COLLEGE

Beginning the Thirty-Fifth Year Of Its Existence—Bright Prospects.

Hartford College began her thirty-fifth year of work on Monday, Sept. 7, 1914, with flattering prospects for an unparalleled year in point of number of student body, interest of the patrons and equipment of the school. Devotional exercises were conducted by Revs. Napier and Bulfin.

President Brown, in opening, expressed his appreciation of the presence of many patrons, former graduates, the school board, and all interested friends of the institution. He made a special plea to the boys and young men, urging them to remain in school and complete the High School course, as a foundation upon which to prepare for life work. Supt. Shults stressed the importance of obedience to law, and cited the advantages of present-day pupils over a former generation. Col. Barnett, on behalf of the Board, commended the Faculty and emphasized the intention of the Board to endorse everything the teachers did, believing them to be earnest, conscientious men and women, striving for good and lasting results.

Dr. Ford gave a good talk on Sanitation, the importance of cleanliness, and necessity of fresh air in all buildings. Prof. Tinsley encouraged teachers and pupils alike in his earnest talk, of which "Hope" was the theme. Short talks by Judge Glenn, Prof. Leach, Mr. Davidson and Mr. Palmer followed. The out-of-town students were assured that every consideration, hospitality and good fellowship would be shown them.

The growth of the school in five years from a high school enrollment of thirty-five (35) to the present enrollment of more than one hundred, attests to the shrewdness made, both in interest shown by the citizens of Hartford and the efforts made on the part of the Faculty. One hundred and fifty were enrolled in the grades.

The following out of town High School students matriculated Monday and Tuesday: Misses Sallie Coleman, Paradise; Geneva Brown, McHenry; Evelyn Clark, Mazie Clark, Dundee; Mary Bender, Mautaus; Iva Ambrose, Edna Elliott, Buller county; Goria Flenner, Cromwell; Margaret Williamson, Echoles; Willie Lindley, Point Pleasant; Mae Whittinghill, Eva Butler, Fordville; Ida Parrish, Laura Parrish, Hartford; H. R. I.; Dena Hlat, Sophia Ward, Clarice Ward, Norine Barnett, Gussie Bennett, Luciline Bennett, Noeek; Little Bell, Buford; Messrs. Aaron Ross, McHenry; Archie Brown, Rockport; Mack Denton; Raymond Nall, Centertown; James Coleman, Paradise; Ellis Bell, Earl Hocker, Point Pleasant; Clarence Igleheart, J. B. Igleheart, Pearl Sanderfur, Byron Williams, Charley Ward, Noeek.

David J. Palmer, of Iowa, was elected commander-in-chief of the G. A. R. at the meeting in Detroit last week. Washington was chosen as the 1915 meeting place.

A CONVENTION CALLED TO ARRANGE PROGRAM

For Constitutional Election In Mexico — One Rebel Chief Balks.

Washington, Sept. 5.—Administration officials expressed their satisfaction today over the reports from Mexico City that a general convention of Governors, military chiefs and delegates representing the army had been called for October 1 to arrange a program for a constitutional election.

This represents the chief demand of Gen. Villa and acquiescence in it by Gen. Carranza was regarded as a most hopeful indication toward harmony between the two leaders.

The only dark spot on the Mexican horizon is the attitude of Gen. Zapata. Official reports say he refuses to come to an agreement with Carranza and will have no meeting with the first chief unless the latter goes south to Zapata territory.

The Southern chief also said he would insist on the plan of Ayutla to the effect that he should become Provisional President, but was willing to share the executive power equally with Carranza. The latter has declared the proposal absurd. Efforts of the American Government to bring Zapata and Carranza into harmony continue, but the outlook is said to be far from encouraging.

Officials here are confident, however, that if the Carranza and Villa factions agree and maintain a strong central government, the Zapata problem will be disposed of without difficulty, as there would be thousands of Constitutional troops available for an expedition to the South.

NECK BROKEN BY FALL FROM WAGON TO STREET

Cynthiana, Ky., Sept. 5.—James W. Smiler, a prominent business man of the city, met death here this morning in an unusual manner while driving a wagon. He fell from the seat to the street, his head striking the curb and his neck being broken. He died before medical aid could be summoned. He was 72 years old and a Civil War veteran, having been a member of Gen. John Morgan's command. He is survived by his wife and five children, four of whom reside in this city. The funeral, conducted by the Rev. J. D. Armistead, of the Cynthiana Christian church, will be held from his late residence Sunday afternoon, followed by burial in Battle Grove cemetery.

NOTICE—PAY YOUR TAXES.

I, or one of my deputies, will be at the precincts named below on the following dates to receive your tax:

Wednesday, Sept. 9, Horse Branch and Dundee.
Thursday, Sept. 10, Clinton.
Saturday, Sept. 12, Broadway, McHenry and Taylor Mines.
Monday, Sept. 14, Rockport.
Tuesday, Sept. 15, Beaver Dam and Ceralvo.
Wednesday, Sept. 16, Smallhouse.
Thursday, Sept. 17, Point Pleasant.
Friday, Sept. 18, Centertown.
Monday, Sept. 21, Hecla.
Monday, Sept. 28, Buford and Deandfield.
Tuesday, Sept. 29, Tuffy and Herber.

The tax books for the above dates will not be at the Sheriff's office on dates mentioned. Only one trip will be made to these points. So please meet me and save the extra time and expense of coming to the office.

S. O. KEOWN, Sheriff.

Pierce-Williams.
The Herald is in receipt of a card announcing the marriage of Mr. Gross Taylor Williams and Miss Cornelia Pierce at Chicago, Ill., the home of the bride, last Saturday evening.

Mr. Williams, another of Hartford's young men who is making good, has the very best wishes of his numerous friends here.

At home after December first, 113 East 56th street, Chicago, Ill.

State Fair Dates.
Kentucky State Fair, Louisville, Ky., Sept. 14-19, 1914. Round trip fare from Hartford, Ky., \$3.35. Dates of sale Sept. 12th to 19th; return limit, Sept. 23d.

3012 H. E. MISCHKE, Agt.

TWO MOONLIGHT SCHOOLS ARE BEING CONDUCTED

In Ohio County With Very Satisfactory Results To Attendants.

Ohio county has always been in the front ranks of every movement that tends to better our State and Nation, and now, there being a Statewide movement toward blotting out illiteracy in Kentucky, our county is awakening to the fact that she has hundreds of men and women who, because of carelessness on the part of themselves or parents, or for reasons other than this, did not obtain an education during their earlier years and for this reason have been deprived of taking their full part as citizens of the county.

A moonlight school is the best known method of educating these people, teachers and other citizens in various parts of the county are becoming interested in these schools, and if the interest keeps up, many schools will be organized this fall.

Two such schools have been in progress during the past two or three weeks and have already shown astonishing results. One is at New Baynes, conducted by Mr. Morris T. Gentry, and the other is at Sunnydale, and is being taught by Mr. Lyman G. Barrett. Neither school has yet had an attendance of more than 10 any one night, but both will have about double this number next week. Some of these students can neither read nor write, others were in the second, third or fourth grades when they quit school, while still others are attending for the purpose of bettering themselves in arithmetic or some other study. These men and women, whatever studies they take, are attending for the benefit to be derived, and not for mere pastime, as is shown by the conscientious work that they do.

The only studies being taught by these schools, at present, are reading, writing, spelling and arithmetic, but the teachers hope to find time for other studies later.

A MOONLIGHTED.

RELENTLESS MOVEMENT OF BIG WAR MACHINERY

London, Sept. 6.—The relentless, crushing movement of the great war machines of Germany and Russia has been the dominating feature of the past week.

The strongest section of the Austrian army was routed at Lemberg, in Galicia, with staggering losses, and again on Friday the Austrian center army was defeated at Lublin, in Poland.

How many men were engaged in those vast battles is not known, as the few brief bulletins made public furnish little ground for estimates. The prisoners are spoken of as numbering tens of thousands, while reports say that the Austrians and Russians left 25,000 wounded in their wake because they were without surgeons to attend them and without means to transport them.

Paris confronts the prospect of an attack with calmness. A large part of the populace has withdrawn, although a siege under the present circumstances, with the French armies organically intact and full of fight, appears to be strategically impossible.

High Class Cemetery Goods.
I can furnish anything in high-class Monumental Work, Cemetery Goods, &c., at an exceptionally low price.

R. W. JOHNSON, 3614 Narrows, Ky.

Hon. Shelby Taylor Reappointed.
Among other things, the Daily Signal, of Crowley, La., has the following to say regarding a former citizen of Hartford, viz.:

At a meeting of the Democratic Executive Committee for the Second Railroad Commission District, held at Baton Rouge yesterday, Hon. Shelby Taylor was declared the nominee of the Democratic party, receiving a clear majority of 121 votes over his three opponents.

Chairman Wilkinson then read the result of the returns of the primary received at the office of the Secretary of State. They were: Jones, 2,535; Kelley, 2,371; Powers, 3,476; Taylor, 8,503. The total combined vote for Mr. Taylor's

opponents was 8,382, giving a majority of 121 for Mr. Taylor.

Mr. Taylor returned from Baton Rouge today, and is receiving the congratulations of his many friends here who are highly elated over the outcome of his second election to the Railroad Commission.

Note—The Herald joins Mr. Taylor's numerous friends here in congratulations.

CONDITIONS IN AUSTRIA DECLARED FEARFUL

Lexington, Ky., Sept. 5.—M. Lowenthal, a merchant of this city, today received a letter from his sister, Miss Branch Lowenthal, who is at her home in Przemysl, Austria, in which she says: "Conditions here are awful. We just got notice from the Government to put in provisions for six months. Every one who is unable to provide themselves is driven from the town regardless of how long he may have lived here. All men up to 42 years old are on the battlefield. I am in no frame of mind to write personal affairs."

Mr. Lowenthal is very anxious concerning the fate of his mother and father, sisters and brothers, all of whom live in Austria.

PRESIDENT MAKES AN APPEAL TO CONGRESS

To Levy War Tax In Order To Meet Threatened Treasury Deficit.

Washington, Sept. 4.—President Wilson personally addressed Congress in joint session today, urging legislation to raise \$100,000,000 a year additional revenue through internal taxes to meet a treasury deficit.

Washington, Sept. 4.—President Wilson personally addressed Congress in joint session today, urging legislation to raise \$100,000,000 a year additional revenue through internal taxes to meet a treasury deficit.

Congress listened attentively to the address. Immediately upon its conclusion the legislative machinery was set in motion to carry its recommendations into effect. Chairman Underwood called a meeting of the Ways and Means committee to perfect an internal revenue measure tentatively drafted in preliminary conferences. A bill will be introduced as soon as possible.

The President began reading his address promptly at 12:30 o'clock, after lunch, which had subsided and some members at the Southern delegation gave him "a rebel yell."

Speaker Clark immediately referred the message to the Ways and Means Committee. The Democratic members of the committee met tonight at the chairman's call and began the consideration of the plans to raise the revenue. Various members suggested the sources which they believed would be properly subjected to additional taxation. On the list suggested were:

A tax of one to two cents on gasoline; five to ten per cent tax on railroad and amusement tickets; increase of fifty cents a barrel on beer and domestic wines; increase of fifteen cents a gallon on whiskey; proprietary articles; tobacco and tobacco products; chewing gum; soft drinks and playing cards.

BATTLE TIDE TURNS AGAINST THE GERMANS

London, Sept. 8.—Once more the Germans and the Allied French and British armies have grappled in the great battle which has been fought with only two brief intermissions since August 23.

The tide has turned for a time at least, and according to an official bulletin from Paris, the Germans, on Sunday evening were compelled to retreat.

The battle line stretched in a rough crescent east of Paris from Nanteuil-Le-Hardouin to Verdun. The front was more than 100 miles long, with the French on the outer edge of the crescent and the Germans occupying the interior line. It was a general action, and the British troops were in the battle with the French.

Brief and indefinite though the announcement was, it has kindled high hopes in Great Britain that the German steam-roller has struck an impassable barrier.

Walter Lelsure Dead.

Mr. Walter Lelsure died of typhoid fever at his home near Horton, this county, last Saturday evening. His remains were buried in the Mount Pleasant burying grounds Sunday afternoon.

ONE DEMOCRATIC CANDIDATE, 1916

He Will Be Woodrow Wilson, Says Marshall.

IS ENTITLED TO ENDOORSEMENT

Country Will Give Administration Chance to Prove Utility of Policies.

A UNITED PARTY BEHIND HIM

Washington, Sept. 7.—That the Democratic party will have but one candidate for President in 1916, and that that candidate will be Woodrow Wilson, was the prediction made today by Vice President Marshall.

He expressed the belief that a national campaign, in the ordinary acceptance of that phrase, would not develop this fall. He said:

"It is a maxim of the law that in the midst of arms, the laws are silent, and I predict that in the midst of the European conflict, politics in America will be silent. Here and there, men will vote because of personal preferences for candidates, but the people as a whole will appreciate the extremely delicate situation in which the Republic finds itself and will realize the importance of restraint in expressing views about the foreign war, the necessity of heeding the President's injunction to maintain a strict neutrality and the danger to the preservation of that peace, which is our greatest blessing, in rocking the boat while passing through the troubled sea. They will not wish to interfere in any way with the zealous labors of the President and his advisers to maintain friendly relations with all peoples and entangling alliances with none. In my judgment, partisanship will be sunk by the American people in their great desire to preserve the blessings of peace."

"We may and probably shall have politics in 1916, but not in 1914. And though it may afford the newspaper men a pleasant diversion in hot weather to guess as to probable candidates for the Presidency, they may well confine their guesses to the Republican and Bull Moose parties. There will be no contest in the Democratic party. The policies of the President are practically in abeyance because of the conflict in Europe. Fair-minded Democrats will recognize that he is entitled to a chance for a second term to prove the utility of his policies."

"Lightning rods already up may as well be taken down and preserved for future use; Democratic lightning will not strike a rod in 1916. The Democratic party will have but one candidate for President in 1916 and his name happens to be Woodrow Wilson. He will have the enthusiastic, unqualified and united support of his party."

Notice to the Public.

Having had considerable complaint from different consignees in regard to the hours I am supposed to keep the delivery of freight open here at Hartford, I publish the following from Sept. Logsdon:

"Your letter August 28th relative to the hours of opening and closing your freight station opening hours 7:00 a. m., closing hours 5:30 p. m. Give proper notice at your station."

Please be governed accordingly.

H. E. MISCHKE, Agt.

EASTVIEW.

Sept. 7.—Mrs. Tina Coats, of Livia, was the guest of Mr. and Mrs. T. C. Duke Thursday.

Mrs. H. E. Austin, of Beaver Dam, spent from Friday until Sunday with relatives in this vicinity.

Mrs. Meek Taylor is on the sick list.

Mr. L. B. French spent Thursday night with Mr. and Mrs. H. C. Austin, at Beaver Dam.

Miss Marissa Foster commenced the fall term of school at this place Monday.

In honor of Squire L. Taylor's 87th birthday, on September 3d, his many friends and relatives gathered at his home with baskets well filled. All present enjoyed a good time. Ice cream was served in the afternoon and social games were indulged in by the young folks. The old folks sang some old familiar songs. A large crowd was present.

TRANSITION FROM GAYETY TO TEARS

In Paris When War Came
On Apace.

PEOPLE WEEPING EVERYWHERE

A Horrible Nightmare Of Apprehension That Besets People Of the City.

WAYS OF HYSTERICAL NATION

Gelett Burgess, in Collier's Weekly, gives the following pictures of gay Paris, just before the war clouds gathered of excited Paris, while war was being rumored, and Paris when war came. He writes:

The fourteenth of July I arrived in Paris. It was a national holiday. Singing, dancing on the streets. Little boys with balloons, girls with skirts still higher than ever, the crowd on the boulevard festering, jostling, laughing and gambling at roulette and coqueron upon the sidewalks. And not for one night only, either, this year the over-bright Parisian gala had lasted for three glorious days. Never had I seen Paris so gay. Electric lights everywhere—arches, bands and flags, rioting soldiers, students, tourists, girls and beggars. Other cities have had their carnival moods, but in Paris gayety is an art. Nowhere in the world are such enthusiastic demonstrations of youth and song, of love and kisses. That night, along the Seine, laughter exploded with the fireworks until the dawn came up.

But to-day—there is no dancing on the streets of Paris. Oh, there are still kisses, but they are different now—they are drowned with tears. Yes, there is still youth, but it is ebbing, ebbing away, draining Paris down to the women and old men. Songs? There is but one song left—"La Marseillaise." Costly as war is, it is war. War in every corner. "A Berlin! Hon! Hon! A Berlin! Hon! Hon!" In the cafe everyone jumps to his feet. Instantly the place is emptied. From queerly bearded students, from girls standing on chairs, from aproned waiters, yes, even from the fat throat of madame, the patronne, at her desk the yell goes up—"Vive la France!" And the blue white and red banner, with a thousand boys in its wake, marches, shouting, down the Boulevard du Michel. "A Berlin! Hon! Hon! A Berlin! Hon! Hon!" leaving a seething wake of nationalism behind.

For fifteen days clouds hung over the city, drizzling a little every day, alternate sunshine and rain, threatening all the time. For fifteen days also the mental tension tightened, tightened, as if someone were screwing up a spring. "What will Serbia answer?" the chasseur of my hotel asked me, as he brought in my paper. Three days later a friendly policeman was asking, "Do you think Russia will stand by the Slavs?" Another week and it was my cousin, intelligent landowner, "That German Kaiser, he is truly mad!" Next came the question: "Will France mobilize?" Will Germany declare war? And lastly "Ah, if England will only keep faith!" There was less hope for peace. Blacker and blacker grew the chance of escape. At every cafe the conversation became more and more serious. At every doorway the comrade gossiped, while the cordonneur and the factotum dejectedly shook their heads. "Crises formed and grew larger, here, there, everywhere; behind that tree, in front of the bakery, inside the chancellerie, shattering excitedly over the news. Two words jumped out like rifle shots from every discussion, one heard them again and again: "L'Allemagne!" and "La guerre!" Down the streets, racing from the Grands boulevards, the rascals came running every afternoon, shouting "La Patrie!" and "La Presse!" The papers were snatched and fought for on every corner, the first editions barely lasted to the Pantheon.

By 8 o'clock the evening of the mobilization order, at every doorway, laundry, milk depot and pastry shop stood women, staring out blankly into the street, or weeping silently, or whispering two and two, leaning against a lamp post I saw a young girl, painted and powdered like a clown, with dyed hair, earrings and flesh-colored stockings, a creature dressed for musical comedy, crying bitterly, crying and moping her face till her handkerchief was red and black with melted cosmetics. There was no attempt at privacy anywhere; it was the abandonment of sorrow. Women with month-old babies passed, sobbing;

old ladies and school girls gazed, weeping, out of window after window. It was a nightmare. Paris, gay Paris, in tears? It was inconceivable, grotesque, impossible. It was like the atmosphere one feels before an earthquake or a tornado. One's flesh fairly crawled, as if one were treading on corpses.

What was the matter with the streets? They began to grow queerly silent. To be sure, occasional nervous, determined yellow taxicabs still flew up and down, barking with a new importance—but the automobiles—where were they? In a single hour everyone in the city had disappeared! Every station was deserted.

Clackety-clack, clackety-clack! up the forsaken wooden pavement came a cavalry lieutenant in cuirass and helmet and horse-hair plume, galloping with orders. Shop shutters began to go up. And still the weeping women stood haggard in the doorways. Far away came the sound of cadenced shouting on the boulevard, louder and louder: "A Berlin! Hon! Hon! A Berlin! Hon! Hon! A Berlin! Hon! Hon!" The reaction had already set in.

"RAISE STANDARD" WERE
LAST WORDS OF PRINCE

Copenhagen, Via London, Sept. 4.—The Hanover Courier prints the following account by an eye-witness of the death of Prince Frederick, William of Lippe at Liege:

"On all sides our detachment was surrounded by Belgian troops, who were gradually closing in for the

DEMOCRATS ARE IN HIGH SPIRITS

Over the Present Political Situation.

WILSON'S DIPLOMACY VAUNTED

Over That Of Foreign Nations and People Will Support His Party.

DEMOCRATIC POLICIES BEST

Washington, D. C., Sept. 5.—Party leaders in Washington are speculating on the probable effect of the European war on the political situation in the United States. Prior to the outbreak of hostilities the Democratic leaders were concerned as the drift of sentiment appeared to them to be settling in slightly against the Administration. Republican leaders were in a happy frame of mind, and were making ready to gain members of the House that will be elected in November. Practically all the leaders now believe that the European war will insure to the advantage of the Democratic party. Republicans are disposed to concede that if public sentiment in this country remains riveted on the war as it

Maline played this card strong, and they report that it proved a winner in every district in the Pine Tree State. On this ground alone, Democrats claim, the party is assured of a victory in the Maine election, which will be held on September 14.

BENEVOLENT ROBBERIES
OPERATING IN INDIANA

Princeton, Ind., Sept. 4.—Richard Parrett, son of President Parrett, of the Princeton Light and Power Co., was held up by two men early this morning near his home. While one robber held a gun on him, the other took his watch, pocketbook, \$4. knife and other articles. The robbers engaged "Dick" in conversation, the latter remarking they could not get anything on his watch. Thereupon they gave it back to him. A little later they gave him his knife and pocketbook, after removing the money. They also let him examine the loaded revolver with which he was held up. Finally, one robber said: "Where's that automatic?" The other robber fished out an \$18 pearl-handled automatic gun and gave it to Parrett, saying, "Here, you can have this; we can't get rid of it." The robbers then walked on.

THE MODERN BULLETS
PRODUCE LITTLE PAIN

The Standard's correspondent at Boulogne, describing the condition of the wounded brought there, says that many of them hardly feel any suffering at all. The bullets that strike them are so small and so hot that they drill holes even through bones, and the heat of the bullets acts as a disinfectant.

He tells of one man who was shot through the stomach, the bullet coming out through his back. After two days the wound had healed so well that the man asked the surgeon how soon he would be able to get back to the front.

Some of the wounded, this correspondent says, do not even know they are hit until some hours later. If they feel anything when the bullets strike them, they think it is merely a blow of some kind, and go right ahead.—(London Cor. New York World.)

Po-Do-Lax Banishes Pimples.
Bad blood, pimples, headaches, biliousness, torpid liver, constipation, etc., come from indigestion. Take Po-Do-Lax, the pleasant and absolutely sure laxative, and you won't suffer from a deranged stomach or other troubles. It will tone up the liver and purify the blood. Use it regularly and you will stay well, have clear complexion and steady nerves. Get a 50c bottle today. Money back if not satisfied. All druggists.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of *Wm. D. Gifford*

King's Close Call.
London, Sept. 4.—The Abberville (France) correspondent of the Daily Mail says:

"King Albert came within an ace of death during a sortie on Malines. He was directing operations from his motor car when shrapnel burst ten yards away, blowing off the rear wheels of the car."

DOUBLY PROVEN
Hartford Readers Can No Longer Doubt the Evidence.

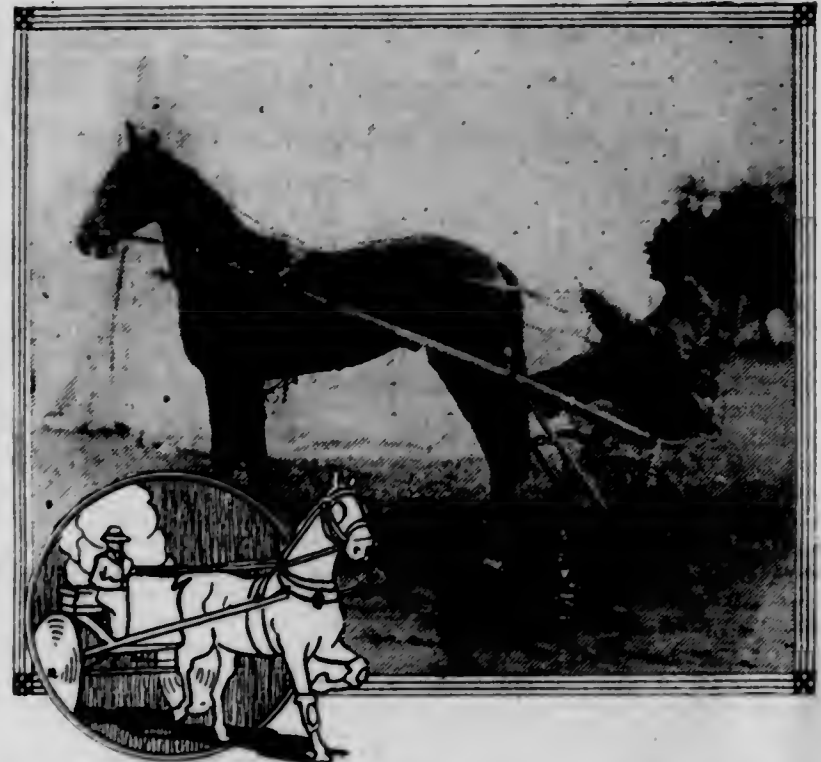

This grateful citizen testified long ago.
Told of quick relief—of undoubted benefit.
Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit.
Mrs. A. L. Alms, 607 Locust St., Owensboro, Ky., says: "I have used Doan's Kidney Pills with good results and consider them a superior kidney remedy. Doan's Kidney Pills promptly relieved backache, difficulty with the kidney secretions and pains in the back and top part of my head."

A Second Statement.
On February 20, 1912, Mrs. Alms said: "I have not used Doan's Kidney Pills of late, as the cure they made has been permanent. You are at liberty to continue publishing my former statement."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Alms had. Foster-Millburn Co., Props., Buffalo, N. Y.

U. Forbes, World's Record Beater

A yearling at the eleventh annual Kentucky State Fair in 1913 this same youngster broke the world's half mile track record and bids fair to give a glowing account of himself as a two-year-old entry in the trotting stakes at the twelfth annual Kentucky State Fair, Sept. 14-19.

purposes of exterminating us. At the Prince's command we formed a circle eight deep, maintaining a stubborn defense. At length a strong division arrived to support us. The Prince raised himself from a kneeling position and turned toward the standardbearer, who lay prone beside him, covering the standard with his body.

"Raise the standard," commanded the Prince, "so we may be recognized by our friends."

The standard-bearer raised the flag, waving it to and fro. This action immediately brought upon the standard-bearer and the Prince a violent fusillade. The standard was shot away and at the same moment the Prince was struck in the chest and expired instantly.

Rheumatism Pains Stopped.
The first application of Sloan's Liniment goes right to the painful part—it penetrates without rubbing—it stops the rheumatic pains around the joints and gives relief and comfort. Don't suffer! Get a bottle to-day! It is a family medicine for all pains, hurts, bruises, cuts, sore throat, neuralgia and chest pains. Prevents infection. Mr. Chas. H. Wentworth, California, writes: "It did wonders for my rheumatism, pain is gone as soon as I apply it. I recommended it to my friends as the best liniment I ever used." Guaranteed, 25c at your druggist.

(Advertisement)

is at present, the Democrats are held to win the new House.

In figuring on a victory at the polls in November, the Democrats believe their opponents will find it impossible to stir up interest in the tariff, the banking question, or other Administration party policies. They insist that with war on in Europe, they are in a position to present a contrast that is bound to win the play for them. They point out that only a few months ago Europe was said to be "laughing at American diplomacy as it had been exhibited in Mexico."

They argued that the best that European diplomacy could do for Europe was to plunge the Powers in a bloody war, while the United States just about the same time drove Huerta out of Mexico, and restored order in that country. A big play will be made upon the success of the policy of "watchful waiting," and the people will be adjured, at this stage in the world's affairs, to support the party represented in the White House by a man of peace, and who resisted the temptation to go to war in the face of the scornful attitude assumed toward the United States by Victoriano Huerta, former Provisional President of Mexico.

"Don't change horses while crossing a stream" will be the watchword of the Democrats. They will tell the people that when the time comes to divide the spoils, that the United States will be called upon to play its part as mediator or arbitrator, and that Mr. Wilson is better qualified to act in this capacity than any other man now in American public life. They will strongly urge that President Wilson be given the vote of confidence that would go with the re-election of a Democratic Congress.

American diplomacy as exemplified in the treatment of Mexican affairs, contrasted with the failure of Old World diplomacy to avert war in Europe, already has been used with effect in the Maine campaign. All the Democratic orators sent to

Ready for To-morrow?

Horses digest their feed less thoroughly than other farm animals. In order to insure thorough digestion of all the food eaten, and to make your horses ready for next day's work, add to their evening feed a teaspoonful of—

Bee Dee STOCK MEDICINE

It will lessen your feed bills.
It will increase your profits.

I am using Bee Dee STOCK MEDICINE with my horses regularly and find it a saving proposition on feed. It also makes them healthy, thriving and clean.

PARIS IS GUARDED BY STRONG FORTS

Surrounding the City in
Three Circles.

DEFENSES MORE FORMIDABLE

Than Those Which Resisted the
Strong German Siege
of 1870-71.

A MASTERPIECE OF RESISTANCE

Washington, Sept. 5.—The fortifications of Paris and their ability to resist a siege is receiving the close attention of military observers, now that Paris is the announced objective of the German forces, and the French ministry of war is strengthening the city's defenses.

The general character of the city's detailed defenses is well known to military experts, who recognize them as among the strongest fortifications in the world.

The fortifications consist of three distinct circles sweeping around the city—first, the solid wall of masonry eighteen feet high extending for twenty-two miles around the old sections of Paris; second, the system of seventy detached forts arranged at intervals, two miles beyond the wall, and making a circuit of the city thirty-four miles long; and, third, an outer circle of forts, seventy-five miles long.

Each of these circles of masonry and steel is a complete defense in itself. The wall around Paris and the seventeen detached forts two miles beyond the wall, were built by Louis Philippe. They sustained the German siege of 1870-71, and the outer forts since have been greatly strengthened. The third line of forts is of modern construction with the latest type of batteries and heavy guns.

The inner wall about Paris surrounds the best known and most important sections of the city. Outside of the wall a circle of suburbs extends for many miles, among which are dotted the forts of the second and third line of defenses, protecting them and the approaches to the capital. The wall contains 93 bastions and 67 gates.

The second line of forts includes the famous fortress of Mont Valerien, which was the center of attack in the German siege of 1870. South of the city is the row of forts at Ivry, Meudon, Mont Rouge, Vanves and Issy. North and east of the city are three great forts around St. Denis, and two others at Fort Aubervilliers and Fort Charenton, commanding the approaches of the great wood of Boulogne. The outer circle of forts of the most modern type form 24 to 60 heavy guns and 600 to 1,200 men each. In all the three lines of defenses require 170,000 men to operate them, not counting troops assembled within the city. According to military experts it would require a force of 500,000 men to invest these defenses.

General Von Moltke, field marshal of the German forces at the time of the siege of Paris of 1870-71 states in a report on that siege that the French artillery armament consisted of more than 2,627 pieces, including 200 of the largest caliber of naval ordnance. There were 500 rounds for each gun, and a reserve of 3,000,000 kilograms of powder. Von Moltke points out that the bombardment of a fortified place, in the heart of an enemy's country, is difficult if not impossible, until the invader is master of the railways or waterways by which heavy siege artillery can be brought up. He explains the failure to bombard Paris at the outset of the former siege by saying it would have required 300 heavy guns with 500 rounds for each gun. The movement forward of these heavy guns would have required 4,500 four-wheeled wagons and 10,000 horses, which were not available.

At a later siege the Germans brought up their big siege guns, attacking the enclosure and forts, dropping 300 to 400 fifteen-centimeter shells into the heart of the city. Notwithstanding the fury of the German attack, Paris withstood the siege for 132 days. Since then the entirely new and outer third line of defense has been erected and military experts say the fortifications as a whole are far more formidable than those which resisted the former siege.

JAMES IS INTERESTED IN MOONLIGHT SCHOOLS

Senator Ollie M. James offers, through the Kentucky Illiteracy Commission, a prize of fifty dollars to the teacher who teaches the best

moonlight school this year, the Illiteracy Commission to judge it from these results: Number enrolled, average attendance, illiterates taught and general interest. This will be a reward and an honor for some teacher. Let some one in our county start a moonlight school and win it.

A VINDICATION FOR OUR NOBLE PRESIDENT

Now that practically all Europe has been plunged into war over a pretext that must be considered trifling—indeed absolutely contemptible in view of the untold human misery involved—it is to be hoped that fair-minded Americans will begin to estimate more at their true value the wisdom and justice of that policy of "watchful waiting" which has proved so successful in President Wilson's handling of the Mexican question. The United States had far more provocation for intervention in Mexico than Austria-Hungary had for its truculent attitude toward Serbia. Huerta proved himself a peculiarly exasperating person, with much more ability and a greater command of resources than were at first credited to him, and there can be no doubt that a war of invasion, and possibly even of permanent occupation, would have proved popular with a large part of the American republic. After the landing at Vera Cruz nothing would have been easier than to find a pretext for such a warlike policy.

It is infinitely to the credit of President Wilson and his advisers that notwithstanding the sneers and jeers of the empty-headed, the malevolent and the selfish interest that desired to exploit Mexico for the benefit of their own pockets, he refused to take advantage of the weakness of a sister republic, but adhered firmly to a line of action that was high-minded and patriotic. Contrasted with the bullying arrogance of Austria-Hungary, which has set all Europe aflame, the President's course has shown the highest statesmanship, and his country has benefited immensely by his patience and tact. This fact is now generally recognized by intelligent Republicans. The Boston Herald, a loyal stamp of organ, after praising the President for resisting the clamor to attack Mexico and comparing his course with that of the authorities in Vienna under less provocation, says:

"But the President exercised a staying and a steady hand. We did not go in. We have saved ourselves the horrors of war, and the long legacy of hate throughout Latin America which would surely have followed. If the example of our own President could find imitators among the crowned heads of Europe it would be a blessing to humanity." —[The Philadelphia Record.]

Cures Old Sores, Other Remedies Won't Cure. The worst case, no matter how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00

AND NOW WHAT WILL THE UNITED STATES DO?

London, Sept. 4.—The Chronicle, in an editorial on the Belgian mission to the United States, makes this comment:

"The sending of the Belgian mission to the United States seems a well justified step, for obviously the United States has a definite though difficult responsibility toward the civilized world in this matter. The observance of the international rules of war can only be enforced by the action of neutral States.

"The United States has always professed special interest in humane internationalism. In the face of the German Government's frank violation of nearly every article in The Hague convention, what is the United States going to do?"

Dizzy? Bilious? Constipated?

Dr. King's New Life Pills will cure you, cause a healthy flow of bile and rid your stomach and bowels of waste and fermenting body poisons. They are tonic to your stomach and liver and tone the general system. First dose will cure you of that depressed, dizzy, bilious and constipated condition. 25c all druggists. (Advertisement.)

HOUSE SPEAKER CHAMP CLARK ON ILLITERACY

Speaker Champ Clark, who was once a school teacher in Anderson county, Ky., writes the Kentucky Illiteracy Commission, of his experiences in teaching adult illiterates in his day school in Anderson county. He taught middle-aged men, who had returned from the army, and other adults. Speaker Clark is one of Kentucky's distinguished native sons, and is watching the illiteracy campaign with great interest. He sends to Kentucky teachers enlisted in this campaign a message of hearty sympathy and good cheer.

THE AWFUL TOLL OF DEATH IN WAR

Spreads a Shadow Over
Warring Countries.

MANY DEATHS OF THE HEART

Broken By Fearful Strain In
Homes Made Sad By
Bereavements.

TIME NOW FOR BRAVE HEARTS

In countless homes throughout Europe are heard lamentation and bitter weeping. Millions—yes, hundreds of millions—refuse to be comforted because their loved ones have gone down into the Valley of the Shadow of Death, from which many will never return. Husbands, fathers, brothers, sweethearts have said good-by, and to millions perhaps it will be earth's last good-by to all that they hold dearest, to all that is more precious to them than all material things. On many a battlefield the Grim Reaper will take his heavy toll. Thousands perhaps a million or more, will die in awful suffering without any loving hand to ease the pangs of torture, while many other millions will be maimed for life—some with limbs shot away, some with eyesight gone, some doomed to agony as long as life lasts.

When our loved ones pass from us after everything that science can suggest has been done to lengthen their stay and ease their pain, we bow before the awful visitor, Death, and with burdened hearts and bowed heads, even though we have an abiding faith in that eternal life beyond the grave, take up life's work again. But on the battlefield the dying, torn and shattered by the awful power of the weapons that man's ingenuity has furnished for killing man, must suffer the tortures of agonies of pain amid the horrors of the dead and the dying all around them.

For every death of the body on these battlefields there are many deaths of the hearts broken by the fearful strain and the overwhelming sorrows of mothers and wives and sisters and sweethearts and other loved ones who will go down to the grave with bitter weeping, unable to find comfort in any thought of tender ministrations or last words of love and hope of a meeting beyond the grave.

This war, so unspeakably unnecessary, so awful in its magnitude, so incomprehensible in any real reason for its existence, ought surely to give pause to the nations of the earth, and men and women ought everywhere to unite in prayer that in some way his fearful march be halted and in some way peace be brought back to Europe and tens of millions be made to rejoice that their loved ones are to be saved from the useless sacrifice which has already cost so many lives and broken so many hearts. And surely we should pray that this country may forever be saved from any spirit of war, and that its people and its officials may forever remember that a soft answer turneth away wrath, and that the world is to be conquered not by might, but by right. Worthless is the commerce and the wealth of the world when weighed in the balance against death and broken hearts.

Peace hath her victories no less renowned than war, and the victories of peace lift mankind to a higher life; they bring joy instead of sorrow to every heart and home. Well may this nation and every other on beaded knees pray that peace may soon come to Europe, and that we shall forever be known as a peace-loving and peace-preserving nation. —[Manufacturers' Record.]

Diarrhoea Quickly Cured.

"My attention was first called to Chamberlain's Colic, Cholera and Diarrhoea Remedy as much as twelve years ago. At that time I was seriously ill with summer complaint. One dose of this remedy checked the trouble," writes Mrs. C. W. Florence, Rockfield, Ind. For sale by all dealers. (Advertisement.)

OHIO'S GREAT PIE TREE —ITS STEADY PRODUCT

Probably the largest cherry tree in Ohio is located in Auglaize county, on the W. H. Sammentinger farm, in Pusheta Township, about four miles southeast of Wapakoneta. Many people from a distance have driven to the Sammentinger farm to view this monster cherry tree. The tree measures over 30 inches in diameter at the trunk base, and its branches measure over 45 feet,

while its height is over 50 feet. The tree was set out by Mr. Sammentinger's father, John Sammentinger, deceased, in 1858, making its age over 56 years. As long as Mr. Sammentinger can remember this tree has yielded on an average of 15 bushels of cherries annually, when any cherries were yielded on any other trees in this vicinity. The variety grown on the tree is known as the heart cherry, one of the best varieties now on the market. The tree presents a beautiful picture when the cherries are ripe and before they are picked. —[Wapakoneta News.]

LAST GREAT EUROPEAN WAR.

Napoleon's Memoirs Offered Free Together With Collier's Weekly and Hartford Herald.

History repeats itself—but with variations. A hundred years ago France alone, under the leadership of Napoleon, faced Germany, Austria, Italy, Russia and Great Britain—and won.

At thirty-six, Napoleon had conquered every nation of Europe and in the battle of Austerlitz in 1805, practically brought the continent under the subjection of the French army. Then Austria, Germany and Russia formed the great coalition against France, only to be beaten in battle until they were forced to sue for peace. England, thanks to her impregnable navy, was the only nation not forced to acknowledge Napoleon's rule.

It was the snow-covered steppes of Russia rather than the military science of Europe that finally turned the tide against him.

The present European crisis gives a particular opportuneness to the offer of Napoleon's Memoirs, announcement of which is made in another column of The Herald to-day. Few books throw a more illuminating and interesting light on the underlying causes of those years of conflict than the fascinating story of the man whose meteoric career left Europe sown with the seeds of discontent.

"Eventually," said Napoleon, "Russia will rule the World." The present conflict will go far towards determining the truth of that prophecy, and day by day it will furnish an absorbing illustration of the advance which has been made in the art of warfare since the days, only a century ago, when France alone had Europe at her feet.

Napoleon's Memoirs, written by his private secretary, Baron De Meneval, will give you a clearer insight into that tremendous upheaval of Europe which the present crisis seems destined to reproduce.

You can get Collier's Weekly and the Hartford Herald both one year, together with the three volumes of Memoirs of Napoleon (post-paid) all for only \$3. It is a rare bargain in the literature line.

A KENTUCKY YOUTH WEIGHING 100 POUNDS

When is Jim Sturgill going to stop growing? That is the question that is worrying the parents of the boy of the Cumberland river in Kentucky. Jim is 16 years old and weighs 400 pounds and his parents now find great difficulty in buying clothes that he can wear. Many offers have been received by Jim's parents from theatrical agencies who want Jim for exhibition purposes but they have all been rejected and in the hills of the Cumberland river country Jim is satisfied and happy. "We do not want Jim to become a show man," his mother said. "He will stay at home with us until he is a man." To her Jim is still a "little boy" despite the fact that he is five feet, eleven inches tall and weighs one-fifth of a ton. —[Hartford Herald.]

How To Give Quinine To Children.

FERRILINE is the trade-mark name given to an improved Quinine. It is a Tasteless Syrup, pleasant to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not nauseate nor cause nervousness or ringing in the head. Try it the next time you need Quinine for any purpose. Ask for Ferriline in bottles. 25 cents.

VOTED FOR HIS PARTY INSTEAD OF THE MAN

The following good story of party loyalty is commented on editorially by the Frankfort State Journal:

"In announcing its intention of supporting the party nominees, although it made a vigorous fight in opposition to Congressman Thomas, the Bowling Green News tells a good story of the party loyalty of a famous Kentuckian of the past. The News says that many years ago Judge Elijah Hise, of Logan county, had a personal misunderstanding with a school man of the town and for years did not speak to him. Later the school man became the Democratic nominee for school or town trustee, and Judge Hise, like the good Democrat that he was, went to his voting place and voted the straight Democratic ticket, including his long-time enemy. After he had thus performed his duty, Judge

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to
Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

Write for: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Strong Treatment for Women," sent in plain wrapper.

Hise left the voting place, and the school man, with hat in hand, profusely thanked him for his vote. The old war horse of Democracy looked his enemy squarely in the face and in stentorian voice replied: "Don't you, sir, I did not vote for YOU, but for the Democratic party."

"There are a few staunch party men of that sort left, but we are constrained to believe that their number is getting smaller and smaller as the years go by."

Chamberlain's Liniment. If you are ever troubled with aches, pains or soreness of the muscles, you will appreciate the good qualities of Chamberlain's Liniment. Many sufferers from rheumatism and sprains have used it with the best results. It is especially valuable for limbering up and lame back. For sale by all dealers. (Advertisement.)

WILL STAMP THE STATE AGAINST ILLITERACY

The list of one hundred speakers, to speak in various sections of Kentucky in the cause of stamping out illiteracy before the next census is taken, is being made by the Kentucky Illiteracy Commission at Frankfort, and is almost completed. This will include some of the State officials, and men and women prominent in educational circles of the State.

Of the two professions, that of writing verse pays much better than that of writing poetry.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Bull's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Bull's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

DEMOCRATIC TICKET.

For United States Senator.
Long Term—J. C. W. BECKHAM.
Short Term—JOHNSON N. CAMDEN.

For Congress.
HON. BEN JOHNSON.

The new Pope says prayer for victory in the European war must necessarily work injury to the cause of the church. Victory for one side means slaughter for the other, he says, and the death of sons and children, destruction of homes equally dear to the hearts of the respective combatants. The Pope says prayers for peace would sound more humanitarian.

Mr. Grey Woodson, of the Owensboro Messenger, has been again elected a member of the National Democratic Committee, to fill the vacancy caused by the death of Mr. Mayo. It seems the members of the Committee were unanimous for Mr. Woodson. It was a wise and good choice, as Mr. Woodson is one of the most active and popular Democratic leaders in the country.

"Peace hath her victories no less renowned than war." Anent the Mexican matter, President Wilson has achieved a victory more pronounced and advantageous than any that will come to either of the warring nations of Europe. His remarkable firmness in the face of insulting criticism, coupled with a noble spirit of patriotism and interest in the people's welfare, have stamped him as one of the world's greatest rulers in all history.

To every child in the State of Kentucky is due a good education. All parents should see that their children go to school. The odium of illiteracy is too prevalent in this State already. Perhaps some children may not become graduates and are not so situated as to get the benefit of the full course, but all of them should be educated as far as possible. One of the most important things in any child's life is to get all the educational benefits possible.

Even after all The Hague agreements and conventionalities, it is doubtful if the spirit and acts of nations at war will ever be materially changed. In the first place, it would seem silly to contend that there could be any war at all without the destruction of life. To bring this about, each nation uses every utility at hand. To kill, to destroy, to annihilate—that is the game. The spirit of conscience or feeling for the adversary is completely lost sight of. The greatest aim should be the suppression of war entirely.

The public in general is becoming rather used to what the term "censored" means. At least they understand that what they read of war news has passed under the scrutinizing eyes of some fellow who deleted certain portions of it which did not please his critical observation or agree with the "policy" under which he works. As a matter of fact, however, news has been censored from time immemorial. The managing editor is the Czar in the daily newspaper office and the country scribe acts the part in the weekly shop.

The following political "dope" from the Morgantown Republican is so wholly partisan, so obviously untrue and so ludicrous in its attempt to discredit an almost unanimously endorsed national administration, that we reproduce it just to show what the average Republican editor can do when he "gets down to business." The Republican says:

"We believe the people are disappointed with the Democratic administration, both legislative and executive. It has afforded none of the benefits promised, and has certainly wrought much of the damage feared. It has injured agriculture everywhere and stagnated all productive and industrial activity. It has been destructive and discouraging and not constructive and encouraging. Both its foreign and domestic policies have been vacillating and un-American. It has cared for the interest of everybody except the American citizen. The people will show their disapproval this fall by electing Republicans to Congress in districts now represented by Democrats."

BARNETT'S FERRY.

Sept. 7.—Imogene, the 12-year-old daughter of Mr. and Mrs. Henry Gilliam, who has been very ill of typhoid fever with complication dur-

ing the past few weeks, is no better, and is not expected to recover.

Mrs. Wm. Gentry, who has been ill of malaria and stomach trouble, is improving.

Mr. Sherman Smith and little son, of near Hartford, spent Friday and Saturday visiting Mr. Wm. Gentry and family.

Mr. Ania Foreman and family, of Hartford, who have been visiting relatives in this vicinity, have returned home.

Mr. Floyd Smith left this morning for Centertown, where he will attend school this fall.

Misses Garnett and Ruth Combs left Saturday for Hartford, where they will attend High School.

Miss Clara Smith gave a social Saturday night in honor of her visitors, Misses Garnett and Ruth Combs. The occasion was highly enjoyed by everyone present.

There was a spelling match at Pleasant Walk schoolhouse last Friday night. The good attention and splendid order attested the high esteem in which the people hold their teacher, Miss Clara Smith.

BASE BALL.

The far-famed and long expected Nebraska Indians came to town Wednesday and tried conclusions with the locals at East End Park. Although pitted against professionals the Hartford boys made a very creditable showing. In fact our boys rather had the edge on the Redskins, but were out-lucked at critical times. The game was one of sensational class up to the fatal seventh, the score being 1 to 0 in favor of the invaders. But at that point Manager Heg's machine slipped a cog and as a result of several costly errors, the Indians succeeded in running up the score to six before the end of the contest. Rickard pitched a masterly game for Hartford, proving much superior to his rival on the slab. Our prize twirler struck out five men to his opponent's four and allowed only four hits, while the locals were garnering eight. A large and enthusiastic crowd of fans was on hand.

Innings	1	2	3	4	5	6	7	8	9	—	H	E
Hartford	0	0	0	0	0	0	0	0	0	—	8	3
Indians	0	0	1	0	0	4	1	0	—	—	6	4

The Redskins and Hartford again met Thursday afternoon on the local diamond before another record-breaking crowd. Both teams performed well, the locals, however, giving the visitors a better run for the money than in the previous contest. Rickard began the game for Hartford, but being out of condition on account of his sensational but gruelling work of the day before, it was decided to send in Withrow. The latter pitched a good game and had the Indians well in hand during the remainder of the contest. The local lineup was the same as at the first game except that Elgin was on first and Cundiff held down second. A feature of the game was the sensational playing of leftfielder Carvey Taylor, of the locals. The final score was 7 to 3 in favor of the Indians.

The last number of last week's bill at East End Park was a classy little swat-fest and hunkle-scence engaged in by the Champions, and the Graham team. The visitors came up intending to take our scalps and came very near making good their threat. The local battery consisted of Withrow and Blankenship; Miller, Long and Thorpe were on the points for the visitors. The home team got away to a good lead but were overtaken by the Grahamites in the fifth frame and it was a neck-and-neck affair from there on to the finish. When the locals went to the bat in the last half of the ninth the score was 9 to 8 against them, but our sluggers at once took a fancy to the enemy's offerings and as a result of Pinner's single, Johnson's triple and Barnett's sacrifice fly, the much-needed brace of tallies was put over, making the final score 10 to 9 in favor of the locals. Features of the game were a home-run drive by Barnett inside the park, a homer by Brown over the right field fence, the latter's classy work at first and Elgin's excellent playing at second.

Score.

It costs you nothing to look. We're proud of our stock and we love to show you.

E. P. BARNES & BRO.

Beaver Dam, Kentucky.

PUBLIC LETTING.

Ohio County Court.
M. B. Barnard,
vs.
Public Levy.

Notice is hereby given in above styled proceeding pursuant to law, that the undersigned will on Saturday, the 26th day of September, 1914, between the hours of 10 a. m. and 2 o'clock p. m., at the court house door in Hartford, Kentucky, let at public outcry to the lowest and best bidder the construction of the improvements directed to be made herein as follows:

Embankment bullded across the slough between land of Amanda and R. D. Bennett; second, an embankment and culvert across the Peyton slough; third, an embankment and culvert across slough of Elgin, or Bond Bros. farm; fourth, an embankment across slough near the barn of C. H. Sullenger; fifth, an embankment across the slough just above the abutment of Hartford Bridge across Rough river; sixth, embankment and culvert across the Taylor slough on land of W. O. and R. Holbrook; seventh, an embankment and culvert across what is known as Joe Jeff Bennett slough; eighth, an embankment and culvert across slough on Geo. Phipp's land; ninth, an embankment and culvert across slough on land of L. S. Carson, where said Carson's land joins land of F. L. Felix.

The culvert to be of iron of the following dimensions: At Peyton slough, to be five feet in diameter; culvert on Bond Bros. land to be two feet in diameter; culvert in Taylor slough to be two feet in diameter; culvert in Joe Jeff Bennett slough to be five feet in diameter; culvert in Geo. Phipp's land to be four feet in diameter; culvert on Geo. Phipp's land to be two feet in diameter, and the other on his land to be of the same dimensions, and lastly

culvert on the land of U. S. Carson to be four feet in diameter.

There will be about 4,000 cubic feet of earth to be moved and put in embankments. The work to be completed within sixty days after acceptance of bid.

The work of construction will be let out one piece at a time and then as a whole and the lowest bidder will be accepted.

Bond will be required of the successful bidder.

Board of Drainage Comrs. Ohio County, Kentucky.

Attest:
S. T. BARNETT, President.
W. S. TINSLEY, Secretary. 36t2

A TEXAS WONDER.

the severe injury he received to his head in a ball game at Alexander on the 29th ult.

Mr. McHenry Holbrook, who has a position with the brokerage firm of Burr & Co., Chicago, Ill., is spending a few days with his parents, Mr. and Mrs. R. Holbrook, city.

Messrs. W. H. Barnes, M. L. Heavrin and Miss Verna Duke went to Elizabethtown, Ky., yesterday to take depositions in suit of Miller vs. Keown. They will return home Thursday or Friday.

Miss Daisy Wedding, who has been visiting her parents, Judge and Mrs. R. R. Wedding, Hartford, will leave to-morrow for Greencastle, Ind., where she goes to enter her third year in the DePauw University.

Mr. Victor Steifer, Hartford, Route 6, who had been stationed at Fort Terry, New York, for the past three years, arrived home last Thursday, he having served his time of enlistment—three years—and was honorably discharged.

Mr. J. N. Snappire, wife, and Mrs. J. M. Mattingly and daughter, Stella Marie, of Campbell Hill, Ill., who had been spending the past week with their parents, Mr. and Mrs. C. P. Schapmire, and other relatives and friends in Hartford, returned home last Monday.

Prof. Raymer Tinsley arrived home last week from Frieberg, Germany. Mr. Tinsley went to Germany a few weeks ago to pursue his studies in the German language. The conditions brought about by the European war caused him to return home.

Mrs. Dr. Z. H. Shultz, Pleasant Ridge, and Mrs. Dr. J. O. McKinney and children, Taylor Mines, spent last week with their parents, Mr. and Mrs. J. J. Sanderfur, Union street.

Mrs. Sanderfur accompanied her daughter, Mrs. Shultz, home Saturday and will make here a ten-days or two weeks visit.

Mrs. Olla E. Taylor, widow of the late John W. Taylor, accompanied by her little daughter, Vivian, will leave to-day for Uniontown, Ind., where they will make their home with Mrs. Taylor's parents, Mr. and Mrs. Jonathan Miles. Hartford people regret very much to lose Mrs. Taylor and daughter from their midst.

Mr. E. P. Thomas, city, will leave to-morrow with his daughters, Mrs. Emory Schroeder, of Hartford, and Mrs. W. J. Punsley and little son, of Cadiz, Ky., for a trip to Washington, New York, Philadelphia, Baltimore, Plainfield, N. J., and perhaps Niagara Falls, to visit relatives and enjoy an outing. They will be gone about a month.

V. M. Stewart Dead.

Mr. V. M. Stewart, who recently suffered a second stroke of paralysis, died at his residence in Beaver Dam at about 2 o'clock Tuesday morning. After funeral services conducted by his pastor, Rev. A. B. Gardner, his remains will be interred in Sunnyside cemetery, Beaver Dam, this morning.

Mr. Stewart, who was a member of the Baptist church and one of

Beaver Dam's best citizens, leaves a widow, one daughter, numerous relatives and friends to mourn his demise.

BEAVER DAM.

Sept. 7.—The Institute at this place last Thursday was very interesting and largely attended by the farmers of the county. Prof. Mutchler, of Lexington, lectured in the forenoon on soil-building. He said the soil of this county needed phosphate more than any other of the elements and that the farmers co-operating together could purchase the rock phosphate from the factory in Tennessee at about \$3 per ton in the carload. He said that stable manure was the greatest of all fertilizers and next to plowing under green crop. In the afternoon he lectured on co-operation of the farmers. He said the Government was encouraging co-operation of the farmers and the State would render any aid in that direction necessary. He advised the farmers to get together and pool all their products for sale. Prof. Clayton, of Louisville, gave two lectures on how to treat orchards to get the most and best quality of fruit each year. Altogether it was an interesting day for the farmers.

The fall term of the school opened this morning with a full corps of teachers. Opening exercises were conducted by Prof. Stillwell. The children were out in full force and everything points to another interesting term.

For Sale.

BIG FORTUNES IN
WAR PRIZE MONEYAs Apportioned To The
Fighters.

RULES GOVERN DISTRIBUTION

By Prize Courts Of Different
Nations—Hague Court
the Highest.

SOME VICTORS MAY GET RICH

Sailors of the allied navies in war are to receive a substantial reward if the reports of prizes taken so far are any indication of what is to come. According to the incomplete lists obtainable, the allies have captured about 60 merchant vessels. All of these will be condemned by the prize courts in the various countries, and a proportion of the money obtained will be divided among the blue-jackets.

Customs of the different nations in regard to prizes and prize money are not definitely known by the consuls here, but the English rule on this question is the same as that used by the United States prior to 1899. At that time all the rules governing prize money disposition were repealed. It was the habit in the English navy then, and it is believed it still is, to give to the commanding officer of the fleet or squadron one-twentieth part of all prize money taken by any vessels under him.

The commanding officer of a squadron or division under a commander-in-chief receives one-fifteenth of the amount awarded to the captors. The Fleet Captain gets one one-hundredth of the amount given to any vessel or vessels in which he is serving unless the capture is made by the ship he is on board. In that case he obtains a share in proportion to his pay. A commander of a single vessel receives one-tenth of the booty if he is acting under another officer. If he is working independently he obtains three-twentieths. The officers and crew receive a share of what is left in proportion to their pay. All vessels within signaling distance and in condition to give aid, if required, share in the prize money.

Examples of what the awarding of prize money means to the men of the navy may be gained from the amounts paid by the United States in the Civil War and the Spanish-American War. A rule which held in the United States, and it is believed to be law in England, says that if the capture is made by a superior force, half the money goes to the Government. If the captor is in less strength than the prize, all the money goes to the men. But in spite of this rule more than \$15,000,000 was paid to the men of the Union fleet at the close of the Civil War. Sums varying from 13 cents to \$1,900 were paid to the seamen. The largest amount to any single officer was \$38,318.

Although there were not so many vessels taken in the Spanish-American War, the shares of prize money were even larger than in 1866. It was computed in May, 1898, that the share to Admiral Sampson as Commander of the North Atlantic squadron, which took so many prizes at the onset of the struggle, was \$150,000. The capture of the Spanish fleet at Manila by Admiral Dewey's ships brought \$787,531.56 to the men of the fleet. The Naval Pension Fund received a like amount. Admiral Dewey's share of this was \$39,376.57. The men on the average received a sum corresponding to three months pay.

So far the allied fleets have taken about 60 prizes. It is believed that these will be held until the end of the war and then be judged by the prize courts of the different nations. According to an international agreement signed at The Hague in 1907, an international Prize Court of 15 members has been established to which an appeal can be taken either on an error of law or fact by the owners of prizes from the decisions of the prize courts of the captors. All the contending Powers are signatories to this agreement.

Estimates made on a conservative basis have placed the average value

Lincoln Beachey, World's Champion Aerialist,
Will Fly at Kentucky State Fair

RAIN or shine, wind or calm, Lincoln Beachey, who is said to "beat the birds" in his above the clouds maneuvers, will give two amazing and sensational exhibitions on Saturday, Sept. 19, the closing day of the fair. Beachey will fly upside down, loop the loop, make 2,000 foot spirals and race ten feet above the earth. His feats are without a parallel among bird men, and the Beachey engagement will be the "thriller" of the entire fair.

of the prizes taken so far at \$300,000. In many instances the vessels are worth much more, the Cap Orizgal, of the Hamburg-American Line, having \$1,000,000 in gold on board. At these figures the probable value of the prizes taken so far by the allied nations reaches \$15,000,000. When divisions of this total are made among the officers and sailors there are many who will be able to retire from active service and pass the remainder of their lives on a comfortable income. [New York Herald.]

A PROPHECY?

For I dip into the future, far as human eye could see.

Saw the vision of the World and all the wonder that would be;

Saw the heavens fill with commerce, argosies of magic sails,

Pilots of the purple twilight, dropping down with costly bales;

Heard the heavens fill with shouting, and there rain'd a ghastly dew

From the nations' airy navies grappling in the central blue;

Far along the world-wide whisper of the south wind rushing warm,

With the standards of the peoples plunging through the thunder-storm;

Till the war drum throbb'd no longer, and the battle flags were furled

In the Parliament of Man—the Federation of the World!

[Alfred Tennyson.]

Fifty Years Hence—1964.

Grandpa Jonsmith (showing his boyhood treasures to his grandson): "This, Willie, is the silver medal I won when I was ten years old, for swatting more flies in fifteen minutes than any other boy in my Sunday School class. This membership certificate was presented to me by the Who's Swat Club. The mayor of the city decorated me with this gold medal for being the champion fly-swatter in the city. Here is a jackknife that I bought with money I earned by swatting and selling seven quarts and one pit of flies at five cents a pint."

Chamberlain's Cough, Cholera and Diarrhoea Remedy.

"I advised the 'boys' when they enlisted for the Spanish war to take Chamberlain's Cough, Cholera and Diarrhoea Remedy with them, and have received many thanks for the advice given," writes J. H. Houghland, Eldon, Iowa. "No person whether traveling or at home should be without this great remedy." For sale by all dealers.

Pure Seed Law Needed.

That Kentucky needs a pure seed law is the opinion of Editor Grant E. Lilly, of the Richmond Madhounian. He says:

"The Kentucky Experiment Station has discovered that Russian Thistle is getting a foothold in Kentucky, having been imported in alfalfa seeds from North Dakota. A good many noxious weeds are introduced in this State through the medium of adulterated seeds. Kentucky seems to need a pure seed law and some of the legislative statesmen who are always trying to do something for the good of the farmer ought to get busy and prepare a bill of that sort for introduction at the next session of the General Assembly."

CARDINAL CHIESA
IS ELECTED POPEArchbishop Of Bologna
Succeeds Pius X.

TAKES NAME OF BENEDICT XV.

New Pontiff Has Not Yet
Reached the Age Of
Sixty Years.

SHORT SKETCH OF NEW POPE

Rome, Sept. 8.—Cardinal Giacomo Chiesa, Archbishop of Bologna, Italy, was today elected Supreme Pontiff of the Catholic hierarchy in succession to the late Pope Pius X., who died August 20. He will reign under the name of Benedict XV.

The conclave of the Sacred College, whose duty it is to elect the Pope, went into session the evening of Monday, August 31. The announcement of the outcome of its deliberations was made this morning shortly after 11 o'clock.

Cardinal Gibbons, of Baltimore, and Cardinal O'Connell, of Boston, are on board the steamer Canopus, which is not due at Naples until tomorrow. They were on their way to attend the conclave. Consequently neither of them participated in the election of the new Pope. Cardinal Farley, of New York, reached here several days ago.

Prince Chigi-Albani, one of the assistants to the Throne in the Pope's household, was notified at 11:15 o'clock that Cardinal Della Chiesa had been elected.

At 11:20 o'clock Monsignor Misclatelli, subprefect of the Sacred Palace and governor of the conclave, received a communication from the new Pope, asking that the grating of the Basilica of St. Peter be opened because he purposed in a short time to issue his proclamation.

At this same hour—11:20 o'clock—the master of ceremonies appeared on the central balcony of St. Peter's and spread out the red carpet. The crowd below, which had been waiting for hours in the square in the expectation of an announcement as to the outcome of the deliberations of the Sacred College, understood that a selection had been reached. The people applauded vigorously.

At 11:35 o'clock Cardinal Della Chiesa appeared on the balcony with Monsignor Capostolli, bearing the Pope's cross on his right, and pronounced the ritual announcing the election of Cardinal Della Chiesa. To this he added that the new Pope had chosen the name of Benedict XV.

Again the crowd of several thousand persons cheered, and at once began to make their way into the Basilica to hear the benediction of the new pontiff.

At 11:45 o'clock the new Pope appeared on an inner balcony of St. Peter's, clad in his pontifical robes. The balcony was hung with red velours and a heavy golden fringe decorated the new pontiff.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

orated the railing. The Pontiff pronounced the apostolic benediction to the kneeling crowd below and immediately afterward withdrew and entered his apartments.

It is asserted on good authority in Rome to-day that the new Pope will appoint Cardinal Domenico Ferrata his secretary.

Cardinal Giacomo della Chiesa, who was today elected Pope by the Sacred College in succession of Pius X., who died August 20, was created a Cardinal May 25, 1914. He is Archbishop of Bologna, Italy.

He was born at Pelgi, in the Diocese of Genoa, November 21, 1854, and was ordained a priest December 21, 1878. He served as secretary of the Nonolature in Spain from 1886 to 1887, in which year he was appointed substitute Secretary of State in 1901, and in 1907 he was elected to the post of adviser to the Holy Office.

In 1907 he was appointed Papal Nuncio of Madrid in succession to Mr. Rinaldini, but this appointment was canceled three days later.

It has been 174 years since the time of the last Pope Benedict. On his election to the papacy in 1740 Cardinal Prospero Lambertini assumed that title. It is an interesting fact that the new Pope was archbishop of Bologna while Pope Benedict XIV. was born in Bologna.

GERMANS PIN FAITH
ON GOD AND BIG GUNS

Rotterdam, Aug. 31.—The practical way in which the Germans view the war is well illustrated by a story told here by A. R. Miller, of Louisville, Ky.:

"A certain Protestant clergyman of Hanover," said Mr. Miller, "addressing a large congregation on the morning following mobilization, said, among other things:

"We are now face to face with a peculiar situation. No doubt the Russians, French and English will pray God to give them victory, but there is but one God, and since He is just and impartial, and they are also His children, we, in order to win, must work as well as pray. We must fight harder than the others. God may not always side with big guns, but big guns will certainly help Him make a right decision."

Stop That First Fall Cough.

Check your fall cough or cold at once—don't wait—it may lead to serious lung trouble, weaken your vitality and develop a chronic lung ailment. Get a bottle of Dr. Bell's Pine-Tar-Honey to-day; it is pure and harmless—use it freely for that fall cough or cold. If baby or children are sick give it to them, it will relieve quickly and permanently. It soothes the irritated throat, lungs and air passages. Loosens phlegm, is antiseptic and fortifies the system against colds. It surely prevents cold germs from getting a hold. Guaranteed. Only 25c at your druggist.

(Advertisement.)

AFTER THE WAR—WHAT?
VERY GLOOMY OUTLOOK

After reviewing at considerable length the great benefits coming to the United States through the fact that this country is not at war, or likely to go to war, the Philadelphia Ledger turns its eyes to Europe and utters these mournful words:

"Overtaxed and semi-bankrupt monarchies now plunge themselves into a deeper morass of debt. They are actually destroying tens of millions of their own wealth every day. These war-torn lands, after the strife is over, will not only stagger under their back-breaking debts, but will at once begin to nurse new armies and navies for revenge at some future day."

Better an ounce of did than a pound of going-to-do.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

SOME OF THE HORRORS OF MODERN WARFARE

Dropping Of Bombs From a Zeppelin Airship Upon Defenseless City.

The present war in Europe seems destined to develop horrors which the ancients, with all their cruelty, never dreamt of.

One of the foreign correspondents describes the results of the dropping of explosives from a German airship while flying over the city of Antwerp, in Belgium as follows:

"I have just lived through the most tragic night of the war.

"For the first time in history a great civilized community has been bombarded from the sky.

"I was awakened at 1 o'clock this morning by a frightful cannonade. A Zeppelin had been sighted about 700 feet above the town. I at once went out into the streets and for eleven hours—from one hour after midnight until noon—I have scarcely left the scene of the catastrophe. I have explored every one of the devastated streets. So far I have found ten bombs in ten different streets.

"It is impossible as yet to get accurate statistics. In my calculation there are about 900 houses slightly damaged and about 60 houses nearly destroyed. The number of victims is unknown.

"In a single house I found four dead. One room was a chamber of horrors, the remains of the mangled bodies being scattered in every direction. In the house opposite a husband and wife, whose only son had just died in battle, were killed—a whole family wiped out.

"The Place du Palais, about where the tragedy happened, surpasses in horror anything I ever saw.

"When the Zeppelin appeared it threw searchlights over the city. Almost immediately there followed an explosion, which was repeated three times. Then the Scheidt forts and guards started a heavy fire, but the bomb-throwing continued. The townspeople were alarmed and rushed into the streets in their night clothes. Most of them thought that the siege had begun.

"The dropping of bombs lasted about twenty minutes. Four persons were killed at one spot. The barracks of the Fifth regiment were damaged, as well as other barracks and the military hospital.

"It is said that the purpose of the Zeppelin was to destroy the royal family by dropping bombs on the palace.

"The first doctor to arrive on the scene was Major Louis Livingston Seaman, of the American Red Cross.

"Dr. Seaman, who to-day has been attending the wounded, says that in all his eight campaigns, of which one was against the boxers in China, he had never seen an act of war so ruthless and so terrible as the sight of three young girls mutilated by the bombs and of a dead young mother—all attacked in their beds at night."

THE KENTUCKY POTATO PATCH SHOOT THIS YEAR

Washington, D. C. Aug. 31.—The Kentucky Irish potato patch contains 51,000 acres this year and the total production will be approximately 2,422,000 bushels, according to estimates made by the United States Crop Reporting Board. The condition of the crop is 50 per cent of normal and the present price is averaging around \$1.25 per bushel.

In Continental United States there are 3,708,000 acres planted to this product and this year's production is estimated at 360,614,000 bushels by the Federal Department of Agriculture. This year's crop will exceed the average crop of the past five years by approximately 4,000,000 bushels. The nation's production last year was 331,525,000 bushels, produced on 3,668,000 acres of land and sold for \$227,903,000, or an average of 90 cents per bushel.

A Graduate Gets Back to Earth.
Position Wanted—A young person, having received an excellent education, including writing, geography, history, mathematics, dance, music and art, would like to enter a respectable family to do washing and ironing.—(Saline County (Mo.) News.

AGRICULTURAL WORK IN STATE OF KENTUCKY

Washington, D. C. Aug. 31.—There are 866,980 persons in Kentucky that work for a living and 455,070 of them are employed upon the farm, according to a report which has just been issued by the United States Bureau. Of the persons engaged in agricultural pursuits the bulk of them are farm operators and farm laborers. The farm oper-

ators number 248,994, and 238,221 are men and 10,773 are women. There are 196,373 farm laborers in the State and 177,313 are males and 19,060 females.

There are 490 dairy farmers in the State and they employ 567 laborers and 19 foremen. There are also 214 persons in the State whose principal source of income is from stock raising. The number of cowboys and sheep herders in this State is 472.

In the entire United States there are 71,580,270 persons over 10 years of age and 38,167,336, or 53 per cent of this number, are engaged in gainful occupations. Of the gainfully occupied, 12,659,203, or 33 per cent, are engaged in agriculture. There are 3,865,000 farm operators in the nation and they employ 5,975,000 laborers.

LUKE McLUKE SAYS.

A woman is a person who will pay ten cents for a necklace made of pearls as big as baseballs and then wear them on the street and act as if she didn't know that all the other women knew that they were not the real thing.

Love gives a 90-pound man strength to hold a 130-pound girl on his knee for two hours at a time. Marriage makes him so weak that he can't hold a nine-pound baby two minutes at a time.

The affectionate skirts are all to the good. But a girl doesn't have to wear them so tight that a childger bite sticks out like a toy balloon.

I saw a fool man in a thin silk shirt yesterday, and I'm a son-of-a-gun if he wasn't wearing a ladies' gauze undervest. You could see it plainly.

Father will stop in at his pet Boozie Bazaar on his way home and meet a bunch of Good Fellows and Father will spend Seven Dollars and a Half hollering "Give 'em Another Drink."

Then Father will go home to dinner and if the children happen to leave a pork chop and three potatoes uneaten, Father will begin to indiginate that he is Slaving and trying to Save but Mother is so Wasteful and Careless that he can't lay up a cent.

Many a fellow who is riding around in a big car is using his grocer's money to buy gasoline.

Paughter will spend two hours a day manfearing and polishing her nails and beautifying her hands. But she never notices how ugly and calloused Mother's hands are until the undertaker has robbed them across Mother's breast.

The man who spends hours in Prayer and penitence on Charity may get a reserved seat in Heaven. But if he does it will be a seat behind a post where he can't see anything.

The oh-fashion girl who used to practice on the piano for an hour every day to keep her wrists supple now has a daughter who only tucks the player once a week because she is afraid the exercise will make her ankles big.

A woman always gets mad when her husband gets a new suit of clothes that looks just like the last one he got.

When a man marries he pins his faith to a woman and then gets scratched on the pin.

Their souls never grow old. The silly Princess and the old married woman with a shape like a reservoir get equal enjoyment out of the story in which the Handsome Duke seizes the little American shop girl in his Strong Arms and Raina Showers of Kisses on her hair and lips and begs her to become his'n for Ever and Ever.

This is a funny world. We laugh at an old man, but we respectfully take off our hats to old paintings and old booze.

Judging from the way the girls are dressing they must imagine that all the men are Meat Inspectors.

Acute Indigestion.

"I was annoyed for over a year by attacks of acute indigestion, followed by constipation," writes Mrs. M. J. Gallagher, Geneva, N. Y. "I tried everything that was recommended to me for this complaint but nothing did me much good until about four months ago I saw Chamberlain's Tablets advertised and procured a bottle of them from our druggist. I soon realized that I had gotten the right thing, for they helped me at once. Since taking two bottles of them I can eat heartily without any bad effects." Sold by all dealers. (Advertisement.)

Reconciled.

"Her father said she couldn't have the duke."
"Is she reconciled?"
"Oh, yes. Her father did the handsome thing. Bought her a poodle instead."

If a man can make a better book, preach a better sermon, or make a better mouse-trap than his neighbor, the world will make a beaten path to his door.—[Emerson.

A WOMAN GHOUL POSED AS A RED CROSS NURSE

Hacked Fingers from Bodies of Dead Soldiers to Se- cure Jewelry.

London, Aug. 29.—The execution of a woman ghoul after the fighting between the Germans and Belgians at Esneux, near Liege, is reported in a dispatch received by the Standard from its correspondent in Rosendael, Holland.

He said in the dispatch:

"This woman was discovered near one of the pits where the bodies of the dead were being dumped for burial. She pretended to be a Red Cross nurse, but a search of her person disclosed the fact that she had secreted in her dress fourteen human fingers that had been hacked from the bodies of the dead soldiers.

"Each of the fingers wore a gold or diamond ring. The execution of the woman followed."

Describing the conditions in Esneux after the battle, the correspondent says:

"The streets and the trenches around the city were filled with corpses. In many places they lay piled on top of each other to a height of several feet. Blood lay in deep pools in the streets.

"The bodies of many of the Belgian soldiers were mutilated in a horrible manner. The eyes of many had been gouged out and their fingers hacked off.

"The bodies were loaded into carts and carried to deep pits."

COST OF KILLING MAN IS FIGURED AT \$25,000

What does it cost to kill a man in war?

Probably \$25,000 in the present conflict.

The cost of killing one soldier is obtained by dividing the cost of a war to any of the belligerents by the number of men killed on the other side.

In the Franco-Prussian War of 1870-71 the cost of killing each man was \$21,000. But the cost of every material of warfare has advanced substantially since then. It is safe to estimate—unless the terrible destruction of machine guns upsets precedent—that to bring about a soldier's death will cause an expenditure of \$25,000 on the other side.

France spent \$400,000,000 in actual expenses of that war and \$200,000,000 in repairing materials, giving help to fatherless families and other uses. The German dead numbered 28,600. For every one of these France spent approximately \$21,000.

The figures of the Russo-Turkish War of 1877-78 give an average of \$15,000 for every one killed.

It cost Russia \$1,200,000,000 to kill 58,600 Japanese in the war of 1905, making the cost of the individual slaying \$20,400.

Fatigue, typhus or cholera will, of course, kill the greatest number and reduce the effective force of the armies. In the Crimean War four times as many died through disease as were killed in battle. Advanced hygiene undoubtedly will do much to cut down these figures.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Local Color.

Successful Author—Yes, I have been wishing for an opportunity to visit that section of the country for a number of years.

Sympathetic Friend—And why, might I ask?

Successful Author—Oh, I once wrote a popular novel with the scene laid around there and I want to see how the local color matches up.

Willie's Revolt.

"What's the matter with Willie?"
"He's turned Anarchist."

"Anarchist? Dear, dear! What's turned him?"
"He says he can't support any government that willfully sends ships to bring home stranded school teachers."

Piles Cured in 6 to 14 Days

Your druggist will refund money if PAZO OINTMENT fails to cure any case of itching, blind, bleeding or protruding Piles in 6 to 14 days. The first application gives ease and rest. 50c.

A Unique Situation.

Well, for once in history, a condition arose where an American tourist's money was not good in Europe.—[Atlanta Journal

A New Gas Bomb.

A remarkable tale illustrative of wartime gossip comes from Paris of the invention by a French scientist of a gas bomb which kills every living thing within 300 yards from the

point where it bursts. The story goes that the French are prepared to make use of the new invention if the Germans continue to use the dum-dum bullet and sawtooth bayonet, which, it is alleged, they employ freely.

It is declared that the bomb was tried on 30 sheep. It burst 200 feet away, but all the animals succumbed to the deadly gas.—[London Cor. New York Times.

Great Weekly at a Low Price.

The Cincinnati Weekly Enquirer, a twelve-page paper recently transformed into the size and appearance of a daily, will be furnished in connection with the Hartford Herald at only \$1.35 for the two papers. This price stands good on renewals for The Herald. The Weekly Enquirer is an ideal newspaper, containing a big variety of reading and is especially suited to the farming classes. It is Democratic and progressive. This is certainly a low price for a lot of good reading.

Getting There First.

"What is 'innate wisdom?'"
"It's knowing all the little meannesses of your neighbor before the town gossip or a real estate dealer puts you wise."

Always.

Civilization has always had more or less trouble with the man whose patriotism is slightly subordinate to his pocketbook.—[Washington Star.

A HAPPY HOME

Is one where health abounds.
With impure blood there cannot be good health.
With a disordered LIVER there cannot be good blood.

Tutt's Pills

revivify the torpid LIVER and restore its natural action.

Memoirs of Napoleon

In Three Volumes

The personal reminiscences of Baron de Ménéval, for thirteen years private secretary to Napoleon Bonaparte, bring out, as no history can, many enlightening and interesting side lights on the character of that greatest of leaders. De Ménéval's descriptions have the piquancy and interest possible only because he was an actual eyewitness of the scenes and incidents of which he writes. Their reliability and historical interest can be judged by the fact that the very conservative French Academy publicly recommends them.

A SPECIAL OFFER TO OUR READERS

By special arrangement with the publishers of Collier's, The National Weekly, we are able to give these valuable and interesting Memoirs free with a year's subscription to Collier's and this publication, at a price less than the lowest net cash subscription price of the two papers. Only a limited quantity of these Memoirs is available, however, so to get the benefit of this special offer you must act quickly.

WHAT YOU GET IN COLLIER'S

Collier's is the one big, fearless, independent Weekly of the whole country. Its editorials are quoted by every paper in the Union. It stands always for the best interests of the greatest number of the people. Among its contributors are such writers as George Randolph Chester, author of "Get-Rich-Quick" Wallingford, Meredith Nicholson, Amelia Rives, H. G. Wells, Hamlin Garland, Mary Roberts Rinehart, Henry Beach Needham, etc. It numbers among its correspondents such men as Jack London, Arthur Ruhl, James B. Connolly, and Henry Reuterbach.

It is a magazine for the whole family—Editorials, Comments on Congress, Photographic News of the World, Short and Social Stories by the greatest writers of the day.

Collier's \$2.50
The Herald . . . \$1.00
Special combination price including the three-volume Memoirs of Napoleon, postpaid \$3

H. E. MISCHKE, Agt.

CHARGES ARE BROUGHT AGAINST COMMISSIONER

Of Motor Vehicles—Allege Embezzlement and Forgery in Warrants.

Frankfort, Ky., Sept. 4.—Warrants charging Thomas Byars, Commissioner of Motor Vehicles, with embezzling public funds and forging applications for automobile licenses, were issued at 5 o'clock this evening by Police Judge Herndon on affidavits sworn to by Secretary of State C. F. Crockett. The warrants are the outcome of facts disclosed by the report of inspector and Examiner Sherman Goodpastor, that 133 mutilated applications for automobile licenses had been found, coupled with a shortage in license fees of \$600 and that fifty-nine serially numbered applications were missing. The mutilated applications had been changed so that the horsepower in excess was reduced and the amount of the fee reduced from \$10 to \$5.

Mr. Byars came to Frankfort tonight and surrendered to the police. He is cheerful and all he says is: "I am not guilty." He was found in company with his attorney, former Commonwealth's Attorney Robert Franklin, at the hotel.

Later in the night friends in Shelbyville, who had heard of his arrest, telephoned here that they could come early in the morning and make whatever bond the court fixed. Mr. Franklin said, "From the information given me I have infinite faith in the absolute innocence of Mr. Byars of any measure of crime in connection with the matter."

The alleged embezzlements took place between September, 1913, and July 1, 1914, while Mr. Byars was automobile clerk in the Secretary of State's office. Under the act of 1914 the Commissioner of Automobiles is an independent office filled by an appointee of the State Sinking Fund Commission. The Commission will meet Tuesday to take up the charges made in the Inspector and Examiner's report. He did not accuse anyone of the embezzlement and forgery, but says they exist. Mr. Byars made good the amount of the shortage due to the forgery of the applications, declaring he was innocent, but legally responsible, under his bond, because the fraud was committed in the department under his charge.

USING WAR PRISONERS ON FARMS OF GERMANS

The Chicago Herald says: Prisoners captured by the Germans during their invasion of Belgium are harvesting the crops of Germany, according to Thomas McGuire, of the McGuire & White Detective Agency, who returned to Chicago yesterday after an exciting few weeks in Europe.

"As we rode on the train from Berlin to Holland we passed train

after train filled with Belgian prisoners," Mr. McGuire said. "These prisoners wore shackles of iron. Some wore shackles on their arms and others on their legs."

"We saw about 1,600 prisoners being taken to Germany and I was told that there were 15,000 in all. I was told that they are to be forced to harvest the crops of Germany."

SINGING CONVENTION AT FRIENDSHIP CHURCH

The singing convention met with Friendship Chapel Baptist church on Sunday, August 30, 1914. The convention was called to order by Ezra C. Baird, choir professor. After song and prayer the following officers were elected: Ezra C. Baird, chairman, Ben W. Taylor, secretary. The following classes were represented: Red Hill, with Prof. F. P. Salmon leader; Friendship, with F. P. Salmon leader; No creek, with T. P. Carson leader; Beda, with Frank Linke leader. Also a class composed of William Salmon and his four daughters, of Basin, McLean county, Ky. The leaders of the classes were appointed as a committee to arrange a program.

The program consisted of six songs for each class, three in forenoon and three in afternoon. The program was well rendered and a host of people enjoyed the day. A noon lunch was served and there was plenty for all present. The hospitality of the Friendship Chapel folks was appreciated by all. Friendship Chapel folks have the best wishes of all who enjoyed the day with them.

FRENCH PEASANTS HEAR NOTHING OF GREAT WAR

During these exciting days, when the Germans are reported victorious along the Northern borders of France and the history of 1870 to a greater or less extent is being re-enacted, the French peasants in the outlying departments are as ignorant of the situation, almost, as if they were in the heart of Africa.

In the provinces there are no newspapers and no telegraphic communication. The peasants know nothing of the war, save for wild rumors that filter in from Paris, and fragmentary information that comes in long delayed letters from the soldiers at the front. The interior of France, as far as news is concerned, has returned to the Middle Ages. The peasants are clamoring for authentic words of what is happening.

One rural village in Central France is typical of the situation everywhere. Of the total male population of 200 two-thirds were mobilized and are now on the firing line. There are loungers in the sunny market place, but not the usual throng. There are now only old men, women and cripples. The young women and the boys are all in the fields doing the harvest work that is usually done by the able-bodied men.

Do You Want a Fence

Once a farmer said to one of his farmer friends when he was trying to sell him a cow:

"A cow is a cow." "Yes," replied the other, "but there's a mighty big difference in cows."

Some give lots of good milk, and some don't give enough to pay for their keep. Some it's a profit to own, and others a dead loss. It's the same way with you, Friend Farmer, in regard to your fencing. Some is profit to own and install while others are a dead loss. Remember we have the best wire fencing line, from the strongest pasture fence down to the poultry wire fence. Won't you please get our prices? We have rock-bottom price for every one. We're here with the goods.

ACTON BROS., Hartford, Ky.

SIMMONS.

Sept. 7.—Mr. Justice Miller and family left Tuesday night for Herrin, Ill., to visit relatives.

Miss Raymer, the youngest child of Mr. and Mrs. Robert Raymer, died Tuesday morning of whooping cough and was buried Wednesday at the Maddox burying ground.

Mrs. Dr. Lake returned home Wednesday after a month's visit with her sister in Beloit, Wisconsin. Several from here attended the Indian base ball games at Hartford Wednesday and Thursday.

A series of meetings is in progress here conducted by Bros. Jones and Beasley.

Messrs G. T. Thinsley, Chas. W. Milikin, A. E. Chapman, R. C. Vance, James Moore, Byron Johnson and Alva Fogle went to Central City Friday on business.

Mr. Ollie Haskins and family, of Linton, Ind., are at the bedside of Mrs. Haskins' mother, Mrs. Hill, who is very low of bronchial trouble.

Mr. William Chumley and wife, of Beech Creek, visited Mr. M. F. Chumley Sunday.

Miss Mary Manwaring, who lived at this place several years but moved to McHenry some time ago, died Sunday morning at 7 o'clock of tuberculosis. Her remains were interred in Taylor Mines burying grounds Monday.

HOPEWELL.

Sept. 7.—Mr. J. Brown, of Paradise, and Mrs. J. H. Miles spent last Saturday with Mr. and Mrs. James Brown, of Taylortown.

Last Thursday Miss Ora Williams went to Rockport and her horse got scared at an automobile. She jumped out of the buggy, but did not get hurt much. The horse ran down the road, fell down and it is supposed

wrenched its leg or rather tore it loose from the shoulder. The horse can hardly recover.

Several of our neighbors went to the colt show at Rochester last Saturday. Frank Hays got the blue string, Logan Smith second, on the colts; W. T. Brown second and Henry Stum first on the mules.

Mr. Thomas Ford sold Walter Brown a bunch of lambs last Saturday for 5 1/2 cents per pound.

Misses Beulah Miles and Margaret Taylor spent last Saturday night with Miss Mary Benton, at Wyand.

FARM FOR SALE.

A farm embracing 80 acres, good dwelling, barn, other out-buildings, all fenced, in good repair and fine state of cultivation. This farm is located one and a-half miles from Centertown, close to church and school buildings. Terms—One-half down and remainder in one, two and three years. For further particulars call on or address,

F. L. FELIX,
Hartford, Ky.

OLATON.

Sept. 7.—Olaton is very quiet at this time.

There were about fifty wagons here last Thursday, hauling fertilizer and milling.

Prospects are good for the largest wheat crop ever sown in this section.

Mr. William Oiler and Mrs. Goodwine went to Hartford Saturday and were married. Mr. Oiler is ninety years old and his bride forty-five years old.

The Olaton and Narrows base ball teams crossed bats at Davidson Station last Saturday, the latter winning by a score of 9 to 5. The Olaton

KA-KOA is a blend of twenty-six of the finest materials that go to make a soft drink. Ka-Koa is stimulating, nourishing, thirst quenching, and appetizing. Ka-Koa is the only drink of the age that meets with the requirements of the human needs. Ka-Koa has individuality that no other drink possesses. Ka-Koa is as sweet to your taste, and as pleasing as the rose to your sense of smell, and as pure as the mountain breeze. Really Ka-Koa reminds you of the cool summer shower that puts new life and energy in you, and make you feel like the sun of prosperity is shining again, and the clouds of

I am taking this drink of Ka-Koa at the expense of the Ka-Koa Co., and Hartford Bottling Works. In consideration, I agree not to attempt to secure another drink of Ka-Koa at the expense of the Ka-Koa Co., or Hartford Bottling Works. Not good after Sept. 12, 1914.

remorse and despair have all drifted by.

Won't you please fill out and present the coupon to any first class soft drink stand or soda fountain and get your first drink of Ka-Koa at once expense. Remember that this offer may be withdrawn at any time without notice.

The New 1915
SAXON \$395

HERE'S THE CAR YOU CAN AFFORD TO BUY AND TO KEEP

In upkeep cost the Saxon is absolutely without a rival. It has traveled from New York to San Francisco, over the Lincoln Highway, through deserts, over hills, through all kinds of going and averaged 30 miles to the gallon of gasoline.

Economy With Style

This is the first real automobile cheaper to own and run than a horse and buggy. And no car has more style, more high priced car standard features and no car is easier handled.

Come in and see the car yourself. Let it tell its own story to you.

**M. D. Hudson, Agent,
Beaver Dam, Kentucky.**

ton boys are a little sore over their defeat.

I have been informed that the Fordsville Magisterial District had a dog tax collection Saturday. Sixty dogs cost their owners \$5 each, making the sum total of \$300. Pretty good for one precinct. Olaton has a surplus of dogs that we could get along without. We hate to kill our dogs; but if they kill a sheep we

don't want to pay for it. The best way is, if a dog is not worth paying a dollar tax on, we should kill it.

Dr. C. W. Felix, of Nelson, Ky., is here winding up his old business. He took supper with your scribe Sunday evening. We regret to give him up, but always want a man to go where he can do the best for himself. Olaton needs a doctor badly.
